

EPDM GASKET SOLUTIONS

FOR ALUMINUM WINDOWS, STOREFRONTS,
FACADES, CURTAIN WALLS, WINDOW WALLS

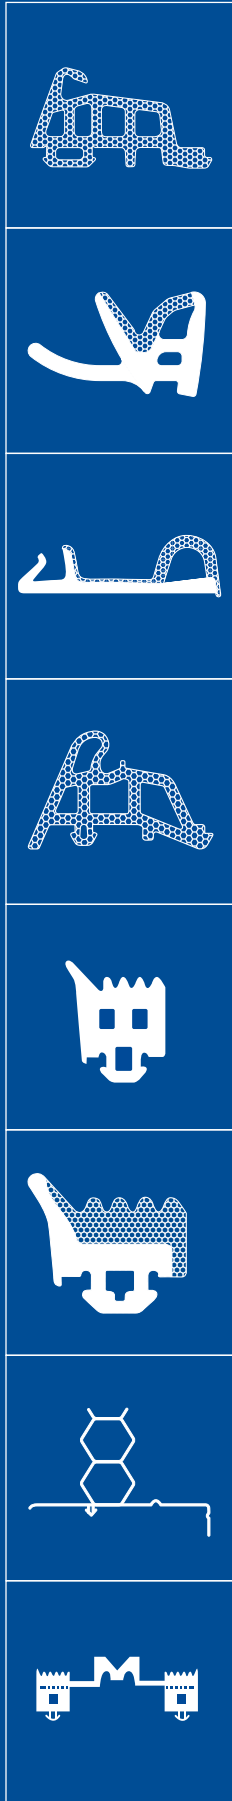

OUR HIGH-QUALITY GASKET SOLUTIONS HAVE DELIVERED MANY YEARS OF TOP PERFORMANCE TO A HOST OF WELL-KNOWN MANUFACTURERS OF FACADES AND ALUMINIUM WINDOW SYSTEMS AROUND THE WORLD

SEMPERIT IS THE PARTNER WHO MEETS YOUR NEEDS WITH QUALITY THAT LASTS

SAMPLE GEOMETRIES

OUR STRENGTHS IN FACADE CONSTRUCTION

- **Development and design skills** delivered by highly qualified employees with extensive experience in facade and window construction
- **Rapid prototyping** with waterjet technology
- **Development partner of choice** for many well known system providers
- **Full in-house test facility** as well as finite element simulation available
- **Flexibility in packaging and delivery**
- **Short delivery times and reliable delivery performance**

WE OFFER A FULL RANGE OF SEALING SOLUTIONS FOR YOUR SYSTEM

- **Cost-effective standard mono gaskets**
- **Co-extruded gaskets with cellular rubber area** for top insulation performance
- **Complex system gaskets**, e.g. self-adhesive or with tear-off edges for easy installation
- **Special geometries** for building construction projects
- **Security of supply** through specialised EPDM compounds from our 4 dedicated mixing facilities
- **Material quality that has delivered top performance for many years** e.g. service life, weather resistance, silicon compatibility, colour stability, ...

IN-HOUSE PRODUCTION OF GASKET FRAMES

- **Extensive experience** in the production of gasket frames
- **Compound, gasket profile and corners from one single source**, completely integrated
- **Precise, fully vulcanised corners** with seamless transition to the gasket profile
- **Precise, clean frame finish** through comprehensive internal quality control
- **Tailored gasket frames** without joint offset to enable **fast installation**
- **Direct delivery** to building site
